Other attractions on the program will be announced from time to time.

The Chamber of Commerce is co-operating in the securing and entertainment of this convention and the city is fortunate in having secured it. Galesburg, Ill., Nov. 4.—A big nine college conference for the leading colleges of Illinois is being planned and if consummated will include Lake Forest, Monmouth, Knox, Lombard, Milliken, Illinois, Wesleyan, Bradley, Northwestern and William and Vashti colleges. Coaches Charnley of Monmouth and Detray of Knox already have conferred and are in communication with other colleges. Illinois Wesleyan writes it would welcome a big nine conference. Lombard is willing. A conference of the athletic officials of the nine colleges named will be held here or in Monmouth in the near future, when a conclusion will be reached. It is expected the new conference will take the place of the present state conference.

Glen Swartz of Palmyra was here today.

## Military Company Of Business Men Is Possibility Now

Young Men Are Promoting Organization Co. G. Officers Will Help

A military company of business and professional men of Dixon is a possibility in the near future. Inspired by the successful "citizen soldiers camps" recently held in New York and at Fort Sheridan, several local young professional men have conceived the idea of a company of willing men of Dixon.

Their plan is to organize such a company, which will meet regularly for instruction at the hands of officers of Company G, who have volunteered such instruction. It is the argument of the promoters that such training as could be received in this manner, in addition to proving most enjoyable and beneficial, would in case of emergency, prove of real value to the nation in providing volunteers with training in the basic details of military maneuvers.

## HAVE BIG SUM FOR TEACHERS PENSIONS

\$600,000 AVAILABLE AT END OF TEN YEARS, SAYS SUPT. BLAIR

1700 ELIGIBLE BY YEAR OF 1925

Springfield, Ill., Nov. 4.—In ten years the state will be appropriating for the pensioning of teachers an average of about \$600,000, according to estimates prepared in the office of Francis G. Blair, superintendent of public instruction. The estimates are based upon statistics prepared from representative counties.

Under the new pension law a teacher must be fifty years old and have taught twenty-five years before he or she is eligible for retirement under the benefits of the pension fund act.

For the purpose of making estimates fifteen counties were selected by the pension fund secretary: La Salle, Whiteside, Jefferson, Iroquois, Stark, Montgomery, Monroe, McHenry, Stephenson, Champaign, Macoupin, Perry, Saline, Alexander and Edwards. It was found that of the 3,870 teachers who taught in these counties in 1914, 229 had taught twenty-five years or over and 1145 had reached the age of fifty and had taught twenty-five years. In other words, 3.7 per cent of the teachers were eligible to pension and retirement.

Using this as a basis, it is estimated that there were 851 teachers eligible for retirement when the pension law went into effect on July 1. Each of these can receive an annuity of \$100, part of which is paid by the state and part by the teacher before he can be retired. This would make the pension fund disbursements \$240,000 to begin with, provided all who are eligible should qualify.

By making allowances for lapses, etc., and counting the amount paid in by the teachers, it is estimated that there will be 1,700 annuities by July 1, 1925, and that \$680,000 will be paid out in pensions that year. Of this the state will pay \$570,000 and the teachers will have paid the balance.

George Cyrus Lock of Kinderhook Pike county, was the first to qualify under the pension fund act. His papers have just been completed. He is 65 years of age and is now engaged in teaching school in district No. 167 Pike county.

A number of pathetic cases have been brought to the attention of the trustees of the pension fund. Many superannuated teachers who spent more than twenty-five years in teaching and are now living in poverty would like to participate in the fund, but are prevented by the fact that they were not teaching when the law went into effect and cannot resume teaching now. One of these is an old man 80 years old who has a cancer on his face and is in dire want. Nothing can be done for such cases.

## HIGH SCHOOL TEAM TO DEKALB

## REPUBLICAN CHIEFS SEE VICTORY AHEAD IN 1916 ELECTION

TUESDAY'S VOTE SAID TO FORECAST DEFEAT OF PRES. WILSON.

### SAY PARTY IS UNITED AGAIN

Wilson, However, Sees No National Significance In Returns From States.

Arthur Sears Henning, Washington correspondent of the Chicago Tribune in his letter from the capital dated Nov. 3, has the following to say concerning the probabilities of the 1916 national election:

Is the country swinging back from democratic to republican control? This is the question brought to the fore by the republican victories and gains in the elections in eight states yesterday. It is a question debated with optimism by republican leaders and with concern by democratic chief tains in view of the approaching presidential campaign.

The republicans note with gratification that the results of the voting yesterday, summed up, indicate a continuation of the drift of public opinion back to favor of their party which was disclosed in the reverses experienced by the democrats of November, 1914. The republicans see in these results a sure sign of the election of a republican president next year and the return of a republican majority in congress.

### See Reunion of Factions.

In analyzing the returns the republicans have also been cheered by the revelation that the progressives in these eight states voting have gone back to the old party from which nothing short of a repetition of the political cataclysm of 1912 is likely to divorce them again.

According to the republicans, the swing of the political pendulum back to their party is amply indicated by the election of McCall, republican, as governor of Massachusetts, the election of Bennett to congress in a democratic district in New York, the return of an increased republican majority in the New Jersey legislature, the close shaves given the democrats in Maryland and Kentucky and in the greatly increased republican vote registered in the municipal elections in New York, Pennsylvania and several other states.

Republican leaders here pronounce the results a repudiation of the policies of the administration.

### Blame On Local Issues.

Democratic leaders are saying that the elections yesterday turned upon strictly local issues and lacked any national significance. They admit, however, that national questions were injected into the campaign in Massachusetts and the congressional contests in New York in which the republicans won.

President Wilson declined to comment upon the outcome of the elections. It was stated in his behalf that he attached no importance to the results from a national political point of view, and that he was only mildly interested in the returns.

Among White House officials, however, a gloomy state of mind prevailed. They had confidently expected that the popularity they have claimed for the president, as a result of his war policies, would be reflected in general democratic victories yesterday, and they were unprepared for the success of the republicans.

## IMMEDIATE DANGER ON BORDER PASSED FUNSTON REPORTS

SAYS CARRANZA TROOPS WERE WORST OFFENDERS FIRING ACROSS THE LINE.

### 'SITUATION IS SATISFACTORY'

Described the Conference With Villa Whose Attitude Was Most Satisfactory.

(Associated Press) Washington, Nov. 4.—Carranza's troops were the main offenders in firing across the border at the battle at Agua Prieta this week, according to the report of General Funston, received here today.

Gen. Funston says that Gen. Calles and Gen. Villa did all they could to prevent injury to American lives and property. "I could not in fairness have opened fire on Villa without treating Calles the same way," he added.

He described the conditions at Douglas as satisfactory and added: "I consider the immediate danger passed." He described his conference with Gen. Villa on the border and said Villa's attitude was quite satisfactory.

Villa with his main army is reported twelve miles south of Agua Prieta, recuperating for another attack.

### Gens. Hunger and Thirst Win.

Douglas, Ariz., Nov. 4.—Generals Hunger, Thirst and Embargo defeated General Villa and his Mexican army attacking Agua Prieta. Unable to get food, water or ammunition because of the embargo against him by the United States, General Villa has retreated southward, in the direction from which he approached the border stronghold representing the de facto government of Mexico. He left over 400 dead on the deserted battlefield. The Agua Prieta garrison loss was twenty-five dead, about seventy wounded. The retreat was sudden. Whether Villa ordered it or his men took it upon themselves to quit the fight and return south for water and food is not known but considerable ammunition left in one of the trenches where a Villa battery of artillery had been in operation for two days showed the haste in departing. At least one field piece was left upon the field.

### Animals Killed; Field Piece Deserted.

The abandoned field piece had to be left because the animals were killed Tuesday by an exploding shell from the Carranza artillery at Agua Prieta, the troops manning it remaining with the gun.

Carranzistas learned this much when six hundred of them sent out as scouts hurried back to the garrison followed by a steady fire from the gun, which opened upon them as they approached.

American army officers were puzzled by the sudden action of Villa. Every message from either Villa or his men to American soldiers had been that he intended to take Agua Prieta or sacrifice his entire army. Just a short time before retreating in the morning he provided the Carranza defense and town with a vigorous artillery fire.

### Villa Forces Threatened Desertion.

One of the Villa deserters told army officers that Villa was forced to quit the border to prevent his men deserting for a body and either joining the Carranza forces or surrendering to the United States.

## Final Decision In Peterson - Swartz Case Friday Morn

Judge Farrand Will Act On Special Master's Report At That Time

The arguments to the exceptions to the special master's report in the case of Harry L. Peterson vs. George Swartz et al. were not completed until late Wednesday afternoon in the circuit court and Judge Farrand will render his decision, sustaining or overruling the report of the master, Friday morning.

This morning motions for a new trial in two cases were heard and overruled. In the case of Otto Frey vs. George Garrick judgment was rendered on the verdict of the jury in favor of the plaintiff for \$91 and costs of the suit. In the case of F. A. LaPorte vs. E. H. Fowell judgment was rendered in favor of the plaintiff for \$550 and costs of suit. In each instance an appeal was prayed to the appellate court which was allowed on the filing of the necessary bond to be approved by the clerk.

The suit of Minnie M. Adams for a divorce from her husband, Ira Adams was taken up and upon hearing solicitors' fees were fixed in the sum of \$25. Temporary alimony was allowed the plaintiff in the sum of \$50 pending final disposition of the suit, to be paid the plaintiff within ten days.

## TEACH CHILDREN TO LIVE IN THE PRESENT

EDUCATOR ADVISES AGAINST CONSTANT REMINDER OF THEIR FUTURE.

### THREE WASTES IN EDUCATION

(Associated Press)

Kansas City, Mo., Nov. 4.—Three kinds of "Waste in Education" were enumerated by Dr. James F. Hosc of the Chicago Normal college, secretary of the National Council of Teachers of English, in an address before the Missouri State Teachers' Association here today. He mentions waste in the use of the school plant, in the expenditure of energy by teachers and in the time of the pupils, but confined his discussion principally to only the last.

"There seems to be no sensible excuse for the closing of the school building except for a few hours in the middle of the day on five days in the week, for this building is often the best public building in the community," said Dr. Hosc. "I look forward to the time when adult education and the opportunity for social recreation will be quite as commonly associated with the public school building as the education of little children themselves.

"In that day it is to be hoped that the conditions for the instruction of the children will be vastly improved. One of the first steps to take to bring this about is to make certain that the teachers are not overwhelmed with classes.

"The present school course is at most wholly traditional. It is handed down from generation to generation, each superintendent putting in a few changes in accordance with his individual experience. There is need of finding out previously what we ought to teach and how we ought to teach it.

### Three Definite Aims.

"I propose three definite aims: culture, efficiency and service. In these will be found to be wrapped up all those desirable results which we are striving for.

Author of "At Good Old Siwash"

### WEALTH.

Wealth is a rare and blissful condition of man, in which he doesn't care what happens to the high cost of living. It is the most delightful of all known forms of arithmetic. You subtract expenses from income and you have anything from a pianola to a trip to Europe left over.

Just how much the remainder will be, depends on the locality, however. In New Hampshire a man is wealthy if he doesn't have to chop his own wood. In North Dakota a man is wealthy if he has to buy an automobile in order to ride down to his barn at milking time.

In France a man is wealthy if he has a stocking full of money. In Ireland a man is wealthy if he has any stocking at all.

In Arkansas a man is wealthy if he can buy store tobacco in New York City a man isn't really wealthy until the department of justice has held a special session on him.

In America it is more popular to be wealthy than it is to be wise or healthy or good or famous. This is because it is very easy to become wealthy in this country. It is so easy that

a great many people who are strictly honest get wealthy in spite of themselves. But it is still easier the other way.

Some people achieve wealth by saving their money, some by making it impossible for the other fellow to save his. Some get wealthy by inventing new machines, others by inventing new evasions. Some get wealthy by guesswork on the Board of Trade; others prefer cinch methods with a City Council. In Iowa men get wealthy by growing two ears of corn where only one grew before. In New York men achieve the same result by planting flat buildings on last year's cornfields.

Wealth is so highly esteemed that a great many people trade their stomachs for it. Others trade their nervous systems, their vacations, their baseball games and their reputations for it. Wealth enables a man to stop worrying about rent day and the price of coal; on the other hand it makes him worry about congress, the bank reserve, the tax levy, the meanness of the attorney-general, the price of automobiles and the continued good health of T. Roosevelt.

In fact, there are so many worries connected with wealth, that it would hardly be worth having it if it were not for two things—the envy of our friends and the fact that we don't have to envy them.

## A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE

If cross, feverish, sick, bilious, give fruit laxative at once

Every mother realizes after giving her children "California Syrup of Figs," that this is their ideal laxative because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleanser" should always be the first treatment given.

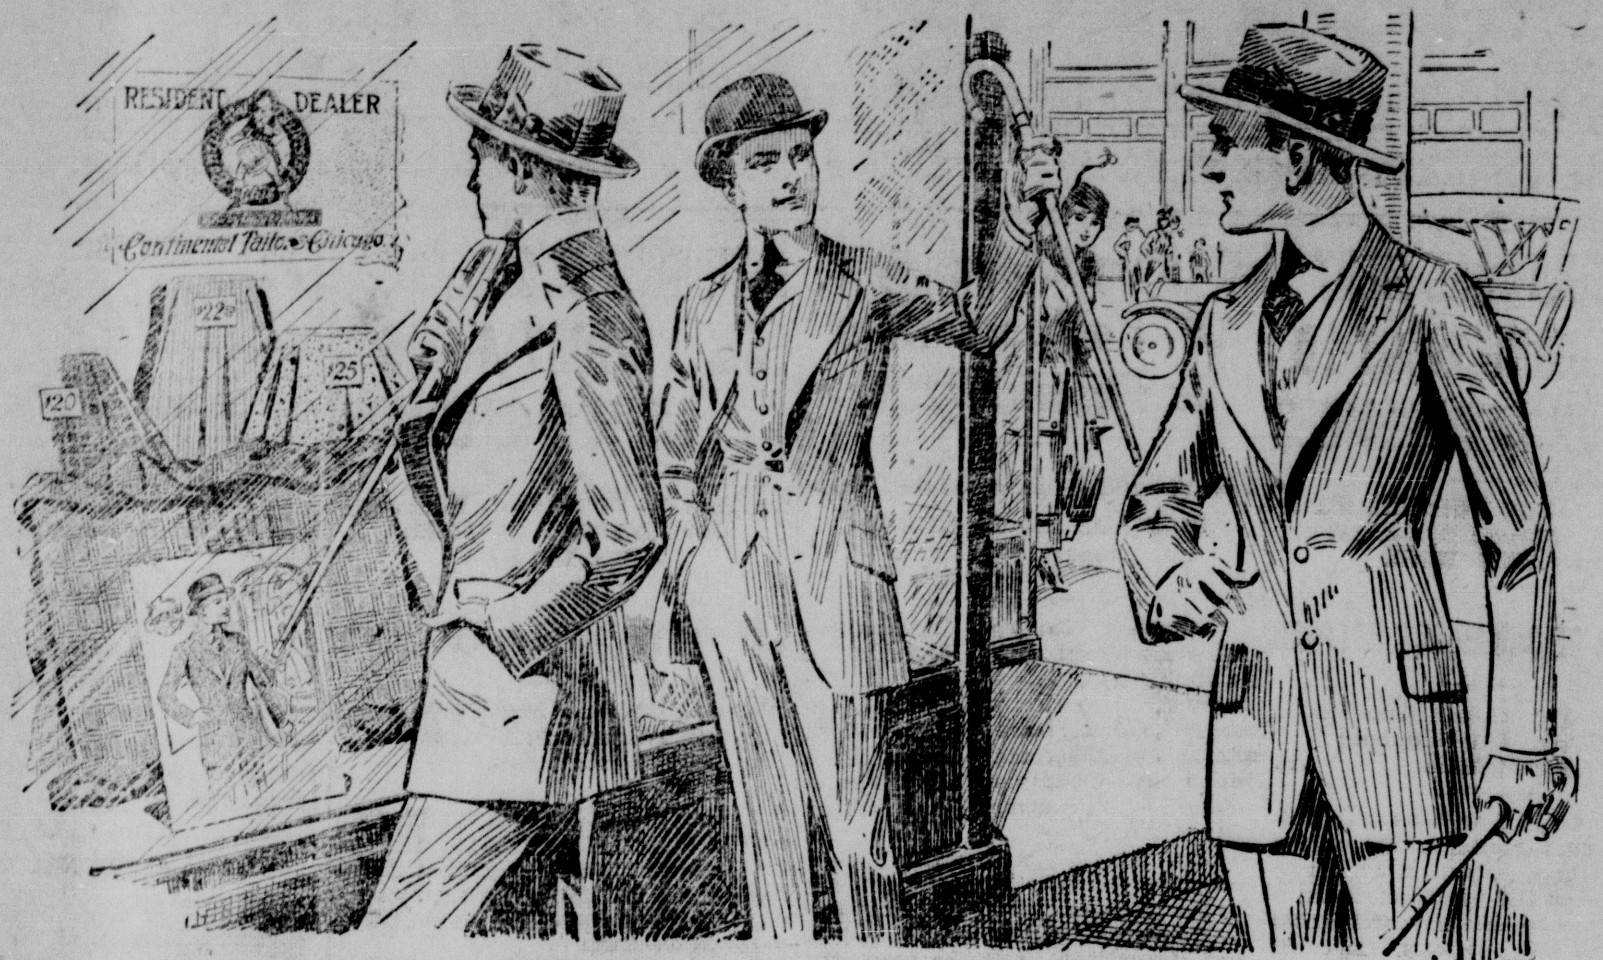

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

135 head of hogs were busily engaged in cracking corn and the star of the bunch was a yearling boar weighing 400 pounds. Then we went to other stables to see the handsome chestnut stallion, a splendid specimen of the equine race and also a chestnut mare that performs as stylishly in five gaits as any animal that was exhibited recently in the Royal Horse Show in Kansas City. Among the other fine things on Mr. Merriman's premises were White Orpington chickens, yellow turkeys, wild ducks with wings clipped and so on. It is a rare treat to have an opportunity to visit such a beautiful home, see so much fine stock of every description, etc. Mr. and Mrs. Merriman are the parents of an interesting family. Their first born is now Mrs. Wm. Beuttler of Sioux City, Iowa, and another daughter, Miss Grace E. Merriman and a son, also spend most of their time in that metropolis; G. H. Merriman resides at Dixon, Ill.; Glen E., George C., Clifford F. and little Miss Helen A. are "with the old folks at home." Dixon, Ill., from whence Mr. and Mrs. Merriman came to Missouri, is 100 miles west of Chicago. They are popular with everybody in Missouri who have had the pleasure of forming their acquaintance. The Merriman farm is not only one of the best in Missouri, but higher up than any other.

## Missouri Editor Has Praise For Walter Merriman Farm

A recent issue of the Breckenridge Bulletin, published in Caldwell County, Missouri, contains a writeup of the farm operated and owned by Walter B. Merriman, a former prominent Dixon man. His many friends in this county will be pleased to read this description of his property:

Fairview Stock Farm is a magnificent one of 500 acres owned by Mr. W. B. Merriman that can be viewed from the Lemon hotel. It is about 1½ miles from Uida. Hon. Herman Dietrich and writer rode out with Mr. Merriman in his car to see his fine Percheron horses, Shorthorn and Hereford cattle, saddle horses, spotted Poland hogs, etc. He came to Missouri from Illinois in 1912 and bought what is generally known as the "Tight" Wells farm, one of the best in this county. As we stood in the front porch of the \$10,000 brick residence that Mr. Merriman recently completed the scenery in every direction was as beautiful as anyone ever beheld in Switzerland or Scotland. It was grandeur intensified to a superlative degree. We could see points in five counties. The residence of 10 rooms, is steam heated, electrically lighted and modern in every particular. There is not a prettier farm home in Livingston county. The fertile fields of the entire 500 are visible from the yard. We first went to the barn to see the Percheron stallions, one of which weighs 2100 pounds and the other 2300 pounds. They are as fine as grow, registered by the Amer-

ican Percheron Horse Association. Then we went to the pastures where a large number of Percheron broodmares were grazing and they are a fine lot for sure. One weighs about 2200 and several of them a ton or more. They were in Kentucky blue grass ankle and knee deep, and Mr. Merriman has 250 acres of fine pasture like that. In another pasture were stallions 1 and 2 years old. We went to another large pasture where a beautiful herd of Hereford cattle were enjoying life and a finer lot it was never my good fortune to behold. All marked alike with white; they seemed proud of their uniforms. One of the largest cows would probably weigh 1500 pounds and over and the average of the whole lot would be away up in the teens. That bunch was mostly cows and 2-year old heifers. In another pasture were yearling heifers weighing from 1000 to 1100. Each was as sleek as a peeled onion—in fact, that was the way all the cattle as well as horses looked. In passing from one field to another we noticed that all the fences are in fine shape and in all there are 18 patent gates on Mr. Merriman's farm. We looked at a big cornfield that will average 75 bushels to the acre and Mr. Merriman harvested 80 tons of fine timothy hay from 32 acres. We lingered awhile in his orchard of 32 acres from which 500 bushels of Jonathan, 500 of Gano and 3500 bushels of Ben Davis apples have been gathered, a total of 5000 bushels. We next went to a lot where

## How To Get Rid of a Bad Cough

A Home-Made Remedy that Will Do It Quickly, Cheap and Easily Made

If you have a bad cough or chest cold which refuses to yield to ordinary remedies, get from any druggist 2½ ounces of Pinex (50 cents worth), pour into a pint bottle and fill the bottle with plain granulated sugar syrup. Start taking a teaspoonful every hour or two. In 24 hours your cough will be conquered or very nearly so. Even whooping cough is greatly alleviated in this way.

The above mixture makes a full pint—a family supply—of the finest cough syrup that money could buy—at a cost of only 75 cents. Easily prepared in 5 minutes. Full directions with Pinex.

This Pinex and Sugar Syrup preparation takes right hold of a cough and gives almost immediate relief. It loosens the dry, hoarse or tight cough in a way that is really remarkable. Also quickly heals the inflamed membranes which accompany a painful cough, and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent hoarse cough. Excellent for bronchitis, spasmodic croup and winter coughs. Keeps perfectly and tastes good—children like it.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in quinine, which is so healing to the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex,"—do not accept anything else. A guarantee of absolute satisfaction, or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Kingdom-Bend Aid

The Kingdom-Bend Aid society met yesterday with Mrs. Irvin McCune at her beautiful country home east of town. Nineteen members and six visitors were present and a great deal of sewing was accomplished for the hostess. The usual scramble dinner was served followed by the business meeting and excellent program of music. The guests were Mrs. Frank Vincent of Carlton, Pa.; Mrs. Charles Rosbrook of Humboldt, N. D.; a recent bride, and Mrs. Albert Schmidt and her mother, Mrs. Gross, of Milwaukee; and Mrs. Jule Hill and daughter, Mrs. Charles Hanson.

The dining room, where the elaborate scramble dinner was served, was prettily decorated in pink and white, asters, geraniums and sweet alyssum with trailing vines forming the effective decorations. The program of music followed the dinner.

A particularly enjoyable feature of the musical program was a number of whistling solos by Mrs. Chas. Rosbrook of Humboldt, S. D., and among them was the ever popular "Listen to the Mockingbird," song. The business meeting, with its regular routine program, was held and various plans for the future were discussed but nothing was decided upon.

Mrs. Ross Bovey of the Crawford farm east of town will entertain the society on Wednesday, Nov. 17th.

Dinner Guests  
Mr. and Mrs. Tryon Rosbrook, Mr. and Mrs. Charles Rosbrook, and Miss Mary Rosbrook were guests Sunday at dinner at the George Remmers home.

Mr. Cash Customer said Prof. Strong's reputation for voracity is as good as any man's in town and I never knew him to misrepresent in all his 20 years of professional life and no matter what anyone tells me I have confidence in his judgment and honor. To prove that he meant what he said he paid us spot cash.

**REPUBLICANS PLUS PROGRESSIVES BEAT DEMOCRATS**

Concerning the recent elections in the eastern states, in which republicans made such substantial gains, the Chicago Evening Post has the following to say:

There was complete fusion between the progressives and republicans in Massachusetts.

Mr. Charles Bird, the progressive nominee for governor who ran ahead of the republicans in 1913, spoke from the same platform as Mr. McCall. Furthermore, the declaration of principles on which Mr. McCall ran embodied practically the whole of the social justice side of the progressive declaration of 1912.

It may be that Mr. McCall would have got his vote without this recognition of progressivism. Penrose, of course, was re-elected at a flat standpoint. But from the anxiety with which Mr. McCall and his political advisers sought Mr. Bird's support it seems evident that they considered it worth having. And the result will certainly prove it so to practical politicians.

We dwell upon this feature of the election first, because we feel that anything that would tend unduly to exalt the confidence of the standpat republican leaders could but have a bad effect on the chances for the party's nominating a 1916 candidate around whom all factions could unite.

But important as is the factional aspect of the Massachusetts gubernatorial election, its national party aspect is greater.

The vote on the governorship of the Bay State gives the first opportunity the country has had since last spring to judge of the political strength of the national administration.

Massachusetts has been democratic for six years. Walsh was elected in both 1913 and 1914. A democratic national administration has been in power during this time. There is belief in Washington that it has strengthened itself and its party by its avoidance of war with Germany. Yet hard upon the German settlement a democratic state turns out a democratic governor by 6,000 majority.

What is the answer?

Does this overthrow reveal a discontent with the terms upon which our settlement with Germany has been obtained? Does it betray an underlying popular resentment not over the avoidance of war but over the impression of American weakness thru which that avoidance has been won? Does it reflect a deepening of this feeling over the hesitant and yielding course of our diplomacy in Mexico?

These questions cannot be answered till 1916. They may not be answered then if the huge hand of foreign war again brushes across our domestic politics as forcefully at it has done since 1913.

But one conclusion, at least, must be clear to practical politicians. It is evident that republicans and progressives when really united on a platform and candidate which both can support CAN carry a democratic state. It is evident, too, that the decisive states which Wilson won in 1912 were those in which the republican-progressive division split the majority vote against him.

It may be impossible to beat Wilson in 1916; foreign events may even make it inadvisable to beat him. But the Massachusetts election points the practical way in which the best attempt to defeat him can be made.

**AWAY HYPHEN AND HYPHENATES!**

Just as hyphenated citizens have declared war upon President Wilson for his neutrality policy, citizens of foreign parentage and birth are organizing a campaign against the hyphen in its object of treasonable dual nationality. Evidently the attempt to force this country into being practically a colony of an European power has disgusted all with a real appreciation of American citizenship, and is going to start a reaction in favor of the latter.—Baltimore American.

How did the election suit you? Same here, only we are sorry that the voters of the east did not have a better appreciation of the ability of their women. Talk about eastern polish and chivalry. Deah me!

Dramatic  
Notes

## FAMILY THEATRE.

Walter and Grace Elliott, supported by C. B. Bracken in Brady, of Central Office, original dramatic sketch, opened at the Family last evening and made an emphatic hit. The act is taken from actual facts, is intensely interesting and most ably produced. The Ellis Trio, two ladies and a gentleman, sang a number of songs that were greatly enjoyed, all having excellent voices. Billy LeMars, a ventriloquist, and a clever team who appeared in songs and dances, completed the bill.

Picture for this evening will be the celebrated Dustin Farnum, in Captain Courtesy.

## PRINCESS THEATRE.

Tonight the two reel Centaur feature, "The Vindication," will be shown

at the Princess theatre. This is a detective drama with a harrowing episode in a lion's cave, featuring the Bostock animals and Mabel VanBuren. The other pictures are "Hattie, the Heiress," a Falstaff comedy with Frances Keyes and Claude Cooper in the leading roles, a tontorial comedy romance wherein a Baldpate wins. The last reel is a Casino comedy entitled "A Corner in Cats" with Cissy Fitzgerald in the leading role, a roaring get-rich-quick scheme.

## OPERA HOUSE.

The following eight reels of high class pictures will be shown at the Opera House on tomorrow evening: "The Millionaire Paupers," an unusual society drama in three reels; "Chasing the Limited," a thrilling western drama in two reels; "A Seashore Romeo," "The Dread Society of the Sacred Sausage," with those inimitable comedians, Max Asher and Henry Gale; and "The Country Girl" featuring beautiful Frances Nelson.

## MINISTER IS IN GRAFT CASE

The Rev. John A. Wood Quits as Justice at Goshen, Ind.

Goshen, Ind., Nov. 4.—Attacks upon the Goshen police department and the Elkhart county judiciary by Charles L. Boiles, a former councilman, which resulted in fifteen indictments against various officers, alleging extortion in the levying and collection of fees, culminated in the resignation of the Rev. John A. Wood, eighty years old, as a justice; the retirement of St. Everett Taylor, assistant state's attorney, and the ousting of George Meyers, a patrolman.

## BIG ALLIED FORCE TO SERBS

Transports Are Unloading Troops at Two Greek Ports.

London, Nov. 4.—Following the promises of Premier Asquith of England and Premier Briand of France, a large force of British and French troops has been sent to aid Serbia. Transports are arriving daily at Saloniki. Other transports, it is stated in a Sofia dispatch, have landed troops at Kavola, a Greek port on the Aegean Sea.

HEARTBURN, ACIDITY

Give "California Syrup of Figs," if cross, sick, feverish, constipated.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

HERE'S NEW VIGOR FOR  
OVERWORKED STOMACH

Rowland Bros., the popular druggists, have been in the drug business long enough to have their own opinion on the best way of selling medicines. They say the plan adopted by Mi-o-na, the great dyspepsia remedy, is the fairest they have ever heard of. They don't believe that a medicine ought to be paid for unless it does the user some good. And Mi-o-na is sold under a positive guarantee to relieve dyspepsia or to refund the money. You simply leave 50 cents on deposit with Rowland Bros. and if you have used the box of Mi-o-na you decide that it has done you no good, all you have to do is to tell them so and they will refund your money.

Hundreds of people have been relieved of stomach agonies by using this remarkable remedy. It is not simply a food digester; it is a medicine that puts all of the digestive organs into normal condition and gives ruddy, glowing, vigorous health. A change for the better will be seen after the first few doses of Mi-o-na and its continued use will soon give the power to eat anything at any time and not suffer distress afterward. Use Mi-o-na and see how much good there is in it.

A Charlie Chaplin Phenomenon by Berton Braley in the Green Book.

Charlie, old pal, we've no personal peeve at you—  
None, anyhow, we at present recall;

Yet we are looking for something to heave at you—  
Paving brick, building stone, hammer or maul.

Charlie, we're weary of every old trick of you—  
Bored with your face and your mustache and cane

Gosh, but we've seen you so much we are sick of you;  
Charlie, we're breaking down under the strain!

You've been exhibited, touted and pageanted,  
Billboarded, placarded hither and yon,

Never was anyone "half so pressed" agented;

Go where we will we must happen upon  
Busts of you, statuettes, photographs various,

Cartoons and comments and posters galore;

Honestly, Charlie, in ways multifarious  
You're getting more of a spread than the war!

Vaudeville is crowded with acts imitating you;  
Every old movie has you on the screen.

We who were strong for you soon will be hating you  
Simply because you're so constant ly seen.

Granted you're gifted with vim and agility;  
Granted you're there with the pep and the zest;

Yet, ere you drive us to dull imbecility,  
Charlie, we beg of you—give us a rest!

ONE KILLED, ANOTHER  
MAY DIE, THIRD HURT

Manager of Film Company and Party in Crossing Crash.

Chenoa, Ill., Nov. 4.—A grade crossing and a speeding Chicago and Alton passenger train, which flashed upon them just as their automobile reached the tracks, caused the death of one and the serious injury of two others in a Chicago motoring party three miles from Chenoa. Miss Bertha Chatkin, 4534 Michigan avenue, eighteen years old, was killed. D. J. Chatkin, 4534 Michigan avenue, Miss Chatkin's brother and manager of the United Film Service company, with offices in the Shops building, and Miss Hanna Ferguson, sister of Isador Ferguson of Isador Ferguson & Co., dealers in women's garments, Chicago, were injured.

Miss Chatkin suffered a fractured skull. As soon as the train was stopped, she, with the others, was placed aboard and taken to Pontiac. She was rushed to a hospital, but died within a few hours. Miss Ferguson, who was internally hurt, is said to be in a serious condition. Mr. Chatkin escaped with severe bruises and cuts.

Mrs. David Kelly was taken to the hospital Wednesday for an operation which the attending surgeon expected to perform this afternoon.

TEACH CHILDREN TO  
LIVE IN THE PRESENT

(Continued from Page 1)

"By culture we mean not merely good manners, skill in conducting one's self in a lady's parlor, nor even knowledge of the ancient classics. As the counterpart of efficiency, culture means the power to appreciate anything that is good and true and beautiful wherever it may be found in one's entire environment. In short, there is no activity of man to which the man of culture is not intelligently sympathetic. He understands its worth and is stirred by it.

"Efficiency is nothing more nor less than doing well whatever it becomes your duty or your privilege to do. It is more than mere skill in performing some single task. It is an ideal of conduct and a habit of control that asserts itself in every situation in which the individual finds himself.

We Are Not Thorough.  
"It has been pointed out of late that our schools are signally failing in producing efficiency and the charge is made that we are not thorough. That we do not drill. If the statement has truth in it, the remedy is to be found not merely by drill but rather by a change of point of view. It is regarded as quite as important to know

the name of some cape off South America as to know the characteristics of a manufacturing center like Minneapolis. To secure efficiency we must determine what is of chief importance in giving real mastery. This means, in other words, that efficiency is to come first of all through a reorganization of the course of study.

"Our last word is service. This it is which can give point and purpose to both culture and efficiency. It is through service that the school is to

be looked upon as itself a society, not a getting ready to live, but actually life in the present. Deferred values have small appeal to childhood. Boys and girls appreciate the here and now. Let us, therefore, not talk to them about service to be rendered in the future, about knowledge and power which shall one day be theirs, but let us rather guide their purposeful activities so that with zest and eagerness they shall work and live together in ideal relations in the present."

## What is the Auto-Front?

THE AUTO-FRONT is the outcome—the final result—of twenty-five years of research and experiment for a single form of kitchen cabinet that would please the greatest possible number of housewives—that would more fully meet their requirements under the most exacting conditions.

The one, and only complaint to kitchen cabinets before the advent of the AUTO-FRONT, was made on account of the doors that swung out over the table top. With the table top covered with pots, pans and dishes the top of the cabinet could not be opened without moving everything—this gave cause for a logical complaint.

The McDougall Company remedied this complaint by perfecting the AUTO-FRONT. By merely releasing the catch—one operation—the AUTO-FRONT drops down completely out of the way.

Thus it is unnecessary to move a single article off the table top to open the entire front.

## ARE YOUR KIDNEYS WELL

MANY DIXON PEOPLE KNOW IMPORTANCE OF HEALTHY KIDNEYS.

The kidneys filter the blood. They work day and night. Well kidneys remove impurities. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles,

Begin treating your kidneys at once; Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by Dixon testimony. W. Walford, blacksmith, Peoria avenue, Dixon, says: "I used to have quite a lot of trouble with my back and kidneys. The kidney secretions were irregular in passage. My back ached, too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21st, 1912.)

NO TROUBLE SINCE. On January 21st 1915, Mr. Walford said: "I have had no kidney trouble at all for the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford had. Foster-Milburn Co., Props., Buffalo, N. Y.

By diligent work on the part of  
the family a bad fire was averted at  
the William Rink home on W. First  
Wednesday afternoon about 4  
o'clock. A spark from the chimney  
had dropped among some leaves in  
the eaves of the roof and started a  
blaze. Before being discovered it  
had set fire to the shingles and had  
burned through the roof boards.  
With a chemical and a garden hose  
the flames were extinguished with-  
out calling the fire department.  
Some of the sparks dropped into an  
upstairs bed room and the upper  
part of the house was filled with  
smoke.
